

Taking Your Quiz

Once you have finished reading your school reading book, you need to take the accelerated reader quiz before you can change your book.

The link can be found on the year 3 homework page.

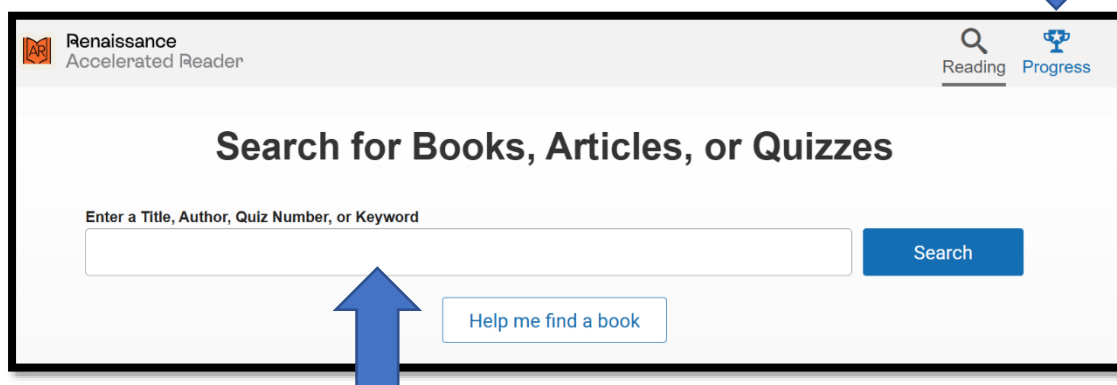

Click 'I'm a student' and log on with your username and password.

Click on Accelerated Reader.

You can click here to see the progress you are making.

Look inside your book to find the quiz number and type it in this box. Check you have the correct book and then start the quiz.

If you would like to read a book from home, you can enter the title and check that it is within your reading range (this can be found inside your reading record book.) If it is, then you are welcome to use that as your reading book.
